Brighter Sound

Both harps have the same exterior body design and bracing. The Sara model has a reinforced soundboard to carry the load of the added wound strings. The Sara harp has slightly more tension. The string spacing remains the same and the harps have closer string spacing than on our Celtic models.

Both the harps have a retail cost of \$1399.00 without levers. A set of sharpening levers, installed is \$410.00. Two brands of padded case

w/base bag suitable for either harp is available for \$191.00 or \$198.75.
